AMERICANS ARE PUT UNDER PRESSURE

Huerta Has Asked the American Government to Recall Charge O'Shaughnessy From Mexico City and Asks Mexican Representative in Washington to Leave United States at Once—Tokio Government Announces Strict Neutrality in Mexican Affair

(By Associated Press.)
WASHINGTON, April 22.—Secretary Bryan, going to the White House at 1:15, said he had received no word from Charge O'Shaughnessy since Monday. The last message from Mexico City came from the American consul late Tuesday forenoon.

Mr. Bryan appeared worried about Mr. O'Shaughnessy and today called him to report about conditions in Mexico City. The secretary was sure, however, that if anything had happened to O'Shaughnessy, other legations in Mexico City would have, through their home government, informed the United States.

The dispatches from Vera Cruz that reached the state department today developed that communication with the American embassy at Mexico City had been completely cut off.

Consul Canada said that all efforts to communicate with the embassy where Charge O'Shaughnessy is located had failed. The department has not heard from the embassy since Monday and some anxiety was felt as to conditions in the Mexican capital.

The absence of news led to various reports that violence was rife in Mexico City. Secretary Bryan appeared worried about the situation. Dispatches from Consul Canada stated that the Huerta forces in Vera Cruz had cut off all means of communication with the capital.

Huerta has requested the United States to withdraw Nelson O'Shaughnessy, American charge d'affaires at Mexico City. This was stated here early today, on good authority, but has not been officially announced.

Mexican Charge d'Affaires Alcala, credited to the United States, has been instructed by Huerta to request his passports from Secretary Bryan. The reported action of General Huerta in asking the withdrawal of Mr. O'Shaughnessy, the American charge d'affaires at Mexico City, and instructing Señor Alcala, the Mexican charge d'affaires here, to demand his passports, technically constitutes a complete breach of diplomatic relations between the United States government and the de facto government of General Huerta, though whether Secretary Bryan is willing to regard it as more than the act of an individual and not of the actual government of Mexico, remains to be seen.

There is no precedent for a refusal to accede to the demand for passports nor to call to withdraw a diplomatic representative upon demand of an established government, but the present situation, involving as it does a de facto government, which the United States has not recognized, never before has arisen.

Huerta MAY DECLARE WAR.
Such a severance of diplomatic relations, though not necessarily a prelude to war, is one of the steps that must be taken if war is to be formally declared and it is surmised that General Huerta is now about to resort to that step regardless of any construction that may be placed upon the existing state of relations between the United States and Mexico by the executive of the former.

If this surmise is well founded, the international relations of Mexico necessarily would be greatly affected and be readjusted to suit conditions in actual war, such as those arising from blockade and the necessity of defining the rights of neutrals within Mexican territory.

It is presumed that General Huerta promptly will serve notice upon the powers through the Mexican diplomatic representatives abroad of such a development in order that they might issue customary proclamations of protest and should such a step be taken, such a proclamation would have some effect upon American commerce and upon the right of the United States government to secure this and the future war from abroad.

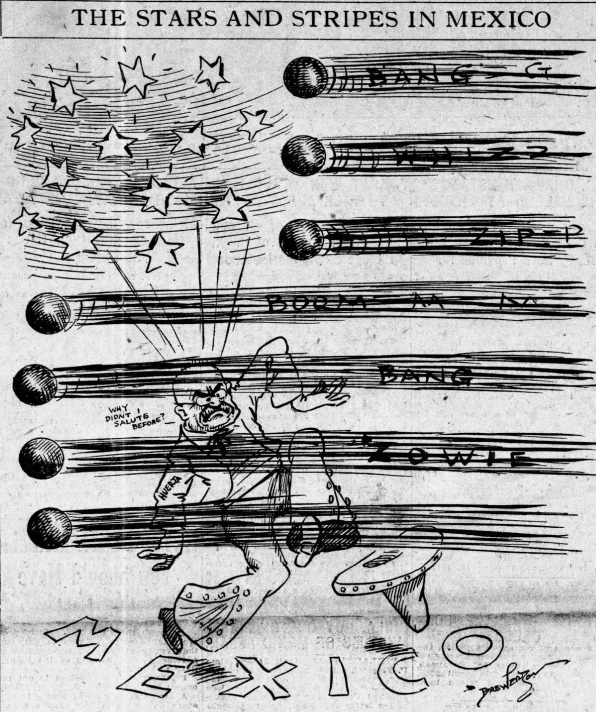

Japan Announces Neutrality
TOKIO, April 22.—Japanese government officials today declared that the attitude of the Japanese government in the Mexican situation was naturally one of strict neutrality. It was pointed out that the Japanese warship Izumo was now at Guaymas on the Pacific coast and could at warship for the embarkation of Japanese residents in Mexico should such a step become necessary.

BERLIN, April 22.—The German government has today announced its intention of sending no additional warships to Mexican waters, according to an official announcement today.

Hawaiian Militia Is Ready for Instant Duty
HONOLULU, April 22.—The Hawaiian national guard is assembled here under orders of Colonel W. J. Jones. Four officers and 34 men are fully equipped and ready for instant duty.

General Huerta and his official family clearly considered even the movement of the United States friends all knowledge of strained relations between Mexico and the United States.

The general public was even more in the dark, since the newspapers' columns of glowing accounts of victory by the federal army and the results of federal successes, said to

FRANK HEARINGS POSTPONED; BURNS SAYS CONLEY GUILTY

Argument on Motion to Set Verdict Aside Fixed for Thursday—Other Hearing for Next Week

Both motions in the Leo M. Frank case, slated for a hearing before Judge H. Hill, of the superior court, yesterday were postponed. The motion to set aside the verdict of guilty in a letter to Frank's attorneys, that he is a perversely and innocent of the crime for which he has been convicted, and that James Conley is the murderer of Mary Phagan, and further that he is a perversely of homicidal tendencies.

None of the new evidence on which Mr. Burns bases his statement has yet been made public, but it will be presented on the motion to set aside the verdict. The outline of Burns' evidence has already been stated in the hands of the defense.

When the attorneys in the case gathered before Judge Hill in the library of the superior court yesterday, the motion to set aside the verdict of guilty was presented. The motion was made public, but it will be presented on the motion to set aside the verdict.

The southern rebels have recently placed in the hands of the federal government, but it is feared they may become formidable enough to venture an attack on the federal capital.

WHAT ABOUT THOSE BONDS FOR GRADY?

We've told you how inefficient, how inadequate, how out-of-date, your municipal hospital is.

If there's a lingering doubt in your mind, go down there and look at the place over for fair. Settle the doubt for your own satisfaction. Learn at first hand that there's been no exaggeration. Jump up and down on the old worn-out and sagging wood floors and see how they are to the floors of some old dilapidated barn. Look in on the tomb where the urns at their meals—a mausoleum where the gas jets must be kept lit no matter how the sun is shining outside. Inspect the quarters for the sick folk: They were built twenty-three years ago. Forty-three thousand patients have been treated in them—forty-three thousand in an endless, crowding procession!

What there is of your municipal hospital, Mr. Voter, is quite creditable to you and all the rest of us.

But there isn't even enough of it, had it as it is. Enough? Not by half! The ramshackle old institution is under a veritable siege of sick folk all the time. A man or woman gets well enough to get out of danger, and they pluck him or her from the bed and put somebody else there. They're waiting to lie down, at Grady!

You say this criticism is severe? Of course it is! It can't be otherwise if it is to be truthful. Conditions are severe. Worse than that—they are acute! Nobody knows what they will be a year from now, if you don't put that bond issue, Mr. Voter!

Look at these figures: In 1912 the city of Augusta, with 46,000 population, had 275 beds in its municipal hospital. Worcester, with 165,000, had 800 beds available. St. Paul, Minn., with 225,000, had 400 beds. Louisville, with 230,000, had 450.

How many for Atlanta? Two hundred! For over 200,000 population, Atlanta had 200 beds!

On Monday of this week, seven of those 200 beds were occupied by pay patients. Everywhere else about the hospital—in the corridors, the pay rooms, everywhere—the charity patients were crowded and more were waiting to get in.

What about this, Mr. Voter?

Will you say "aye" for that bond issue?

MAJOR GENERAL WOOD READY TO LEAD ARMY
Will Proceed to Texas City as Soon as Army Is Called for Action

(By Associated Press.)
WASHINGTON, April 22.—Major General William W. Woodworth today assumed his duties as chief of staff of the army succeeding Major General Leonard Wood. General Wood has been selected to be commander in chief of the army in the event that it is sent into Mexico. General Woodworth has headquarters at Governor's Island, N. Y., but the orders to this effect were called as the result of developments in Mexico. General Woodworth relinquished his duties as chief of staff at midnight last night. He has arranged to leave for Texas City if necessary to take personal command of the military operations in that quarter. General Woodworth is still present in command of a cavalry brigade of 1,000 men. He is expected to be succeeded by General Woodworth.

American Consul Canada Reports Vera Cruz Is Under Absolute Control of American Forces After Bombardment by Battleships and Land Attack by Marines—Serious Consequences Are Expected to Result Because of Conflict With Federal Garrison in Mexican Port

Government Plans to "Sit Tight" at Vera Cruz, Holding It to Convince Huerta Business Is Meant, and Will Make No Demonstration at Tampico Unless Federals Take Offensive—Seizure of Vera Cruz, However, Is Expected to Precipitate Further Trouble

MANY ARMED MEXICANS ARRESTED
WASHINGTON, April 22.—Consul Canada, in a dispatch to the state department this afternoon, said he had not been able to establish communication with the American embassy at Mexico City. He said a house to house search was being made through Vera Cruz and many arrests of armed Mexicans were being made.

RED CROSS PREPARES FOR MEXICO
WASHINGTON, April 22.—A meeting of the executive committee of the American Red Cross was called for late today to prepare for emergencies in Mexico.

WILSON ASKS CONGRESS FOR \$500,000
WASHINGTON, April 22.—President Wilson today sent to congress a message asking for an immediate appropriation of \$500,000 to be used to bring Americans from Mexico back to their home in the United States. The message was referred to the appropriations committee.

The president's message to congress follows: "The existing situation in the republic of Mexico, I recommend the immediate passage by the congress of an act appropriating \$500,000 or so much thereof as may be necessary to be placed at the disposal of the president for the purpose of providing means to bring to their home in the United States citizens now in Mexico."

FALL OF VERA CRUZ COMPLETE
WASHINGTON, April 22.—The American forces are in complete control of Vera Cruz. No non-combatants were injured in the fighting there. This word was received in a dispatch from Consul Canada this afternoon.

The White House gave out the following statement: "Dispatches received from Consul Canada at Vera Cruz at 1:10 p. m. announced that the American forces are now in complete possession of the city, that apparently no fatalities among American and foreign non-combatants and that firing had ceased except for occasional picket shots."

Rear Admiral Fletcher in a proclamation to the people of Vera Cruz called upon them in the interests of humanity to co-operate with him in restoring order. He said they could carry on their municipal government as before and that the United States merely would hold the customs house and patrol the city.

From the vessels of the American fleet under Rear Admiral Badger were greeted with quite general firing from snipers when the boats approached the shore at 4:30 o'clock this morning, the report says.

The Mexican sharpshooters occupied the roofs of houses in the central part of the city and were able to fire down on the American marines and bluejackets as they neared the land from the vessels lying off shore.

American operations in Mexico at Vera Cruz have been reported as a success. Rear Admiral Badger landed more marines from the Atlantic fleet and the United States forces proceeded to take the entire city. While the orders of the president were being carried out to the letter, it was made apparent in conversations with the White House that the United States will "sit tight" at Vera Cruz until the Mexican situation is stabilized.

For the present it was declared on high authority that the forces of Vera Cruz would hold the city to convince the Mexican government that the United States was not bent upon taking the entire city. While the orders of the president were being carried out to the letter, it was made apparent in conversations with the White House that the United States will "sit tight" at Vera Cruz until the Mexican situation is stabilized.

Everything is in readiness for actual warfare, if it must come, and congress today took up no steps in justifying the president's course thus far.

Admiral Fletcher's proclamation to the mayor, chief of police and citizens of Vera Cruz, read: "The United States is here to help you, but it is necessary in the near future to resist active attacks from Mexican federal soldiers for ships to Vera Cruz."

Admiral Fletcher's proclamation to the mayor, chief of police and citizens of Vera Cruz, read: "The United States is here to help you, but it is necessary in the near future to resist active attacks from Mexican federal soldiers for ships to Vera Cruz."

A Message to Cultured Atlanta Housekeepers Who Appreciate the
"Touch of Elegance" Conveyed by Real Hand Made Filet Lace

\$20,000 of Real Filet Lace to Sell at About \$10,850

THIS advertisement is only for those women who appreciate the beauty of real hand made laces for decorative purposes about the home. These women, abreast of the fashions, will be glad to choose at half price from the

Largest and most complete assortment of real hand made Filet laces ever shown south of Washington, D. C.

The charm of these Filet laces lies in their exquisite needle-work and delicate tracery. The patterns are beautifully intricate and wonderfully interesting. Decorative designs from old Italian churches and friezes are duplicated on lace panels and scarfs. Medallions, centerpieces, pillow tops, etc., are worked out in geometrical patterns, animals, landscape designs, etc. Every thread is the highest type of hand work.

It was for this class of lace that the French nobles in the time of Louis XVI sent yearly to Italy almost as much money as would have maintained her army. The lace was used then, as it is now, in the home for the table, the bed trimming, the curtains and for dress.

There is a pride in the ownership of this lace—a pride worth having, for it represents the possession of real art.

The laces come to us at practically half price because their importer has retired from business and is returning to Italy.

Though we could write pages of these laces, they best tell their own story of beauty and charm. Some are in the window; their elegance makes irresistible appeal. The rest of the laces are in the department where the buyer and her assistants are wildly enthusiastic to show them. To the point, then, of prices:—No individual values can be given—there are too many—but the saving at the following prices in no case is less than a third, and in most cases approximates a full half:

Medallions, 1 to 15 inches wide, 15c to \$7.50.
Center pieces, 18-inch size, \$10 to \$15.
Pillow tops, 18-inch size, \$10 to \$15.
Curtain strips, 9 inches wide, \$5 to \$15 a yard.

Insertings and edges, 1 to 12 inches, 85c to \$10.
Panels, 9 to 12 inches wide and 45 to 108 inches long, \$2 to \$15.
Table runners, 9 to 18 inches wide and 45 to 108 inches long, \$5 to \$45.

U. S. ARMY IN CONTROL OVER FOR

VERA CRUZ IS TAKEN:
ARMED FORCES IN
SEARCH OF NATIVES

(Continued From Page 1.)

naval forces of the United States are now at Vera Cruz to land and assume military control of the customs wharves of Vera Cruz. The cooperation is requested to preserve order and prevent loss of life.

It is not the intention of the United States naval forces to interfere with the administration of the civil affairs of Vera Cruz more than is necessary for the purpose of maintaining a condition of law and order to enforce such military requirements.

It is desired that the civil officials of Vera Cruz shall continue in the peaceful pursuit of their occupations.

Under these conditions full protection will be given to the city by the United States naval forces.

It is enjoined upon all inhabitants and property owners to prevent firing by individuals from the shelter of their houses on United States forces or on any other, such firing by irregulars or members of any organized military force, in contrast to the laws of war, is prohibited. It will call for severe measures.

CANT FIND OFFICIALS.
Rear Admiral Fletcher's note sent to the local officials calling on them to cooperate with the American officers in the restoration of order by resuming their sharpshooters and by resuming the government could not be located.

Under these conditions full protection will be given to the city by the United States naval forces.

Communication between the port of Vera Cruz and the federal capital has been entirely severed, and E. F. Hundley, superintendent of terminals, has been unable to ascertain what has become of the trains that were on their way yesterday from Mexico City when the landing of American marines and the capture of the city took place.

MORE MARINES ARRIVE.
Admiral Budge has reported the arrival at Vera Cruz of the battleship Minnesota and the naval transport Hancock, with marines from New Orleans. These ships had stopped at Tampico and were ordered to proceed to Vera Cruz.

The admiral reported he had plenty of marines now to control the situation. The battleship Michigan is due today and the battleship Louisiana tomorrow.

All the American war vessels are held in readiness to start for Tampico at an hour's notice if Rear Admiral Mayo, in command there, desires aid.

The number of foreign refugees on board the Esperanza at Vera Cruz was increased today, when several persons, mostly Americans, took advantage of the hull in the firing during the early hours of the day.

The captain of the German steamer Vireana, which brought the arms and ammunition here for General Huerta's government, today reported to Rear Admiral Fletcher his willingness to take aboard all refugees for whom he had need. The rear admiral thanked him and informed him that there still was men left on board the Esperanza.

(By Associated Press.)

GALVESTON, Tex., April 22.—Twelve three-inch field guns, all new, were here today from Fort Sam Houston, Tex., to reinforce the available artillery already waiting at Galveston for orders to proceed to Mexico. These new guns composed three batteries of the Third field artillery.

Plans for the sailing of the fifth brigade of 4,000 men, which probably will be the first portion of the 12,000 troops here to move, including at present the taking of two batteries of mountain guns, totaling eight, these guns are taken apart for transportation and packed in the artillery men here are encouraged over the results of their training in handling these mountain guns, claimed today that under favorable conditions they can fire one of the guns in little more than ten seconds.

The four transports, Maeda, McClelland, Sumner and Kilpatrick, which will carry the first sea expeditionary force of the army from here, were ready to the last detail except marching aboard the transports. It was estimated that the men aboard would not take more than six hours and might be done more rapidly under pressure.

CHICAGO BOOSTERS TAKE POSSESSION OF ATLANTA

"Crusaders of Acquaintance-ship" to Be Lavishly Entertained

The best part of Chicago is in Atlanta today. It came in the form of thirty boosting boosters packed into a suite of the city's "Crusaders of Acquaintance-ship" of the Chicago Association of Commerce and Industry, who are here for the purpose of promoting the city of the southeast.

The crusaders represent every phase of industrial and educational activity of the Windy City. And in Atlanta Wednesday morning they were greeted by representatives of every phase of activity that this city boasts.

Herbert Brown, the public utility man, stepped into Preston A. Kew's car. William R. Dawes, banker, was greeted by Robert P. Maddox; Glenn Frank, of the Northwestern university, shook hands with K. G. Matheson, of Georgia Tech.

And so it went, each clapping onto each particular business man, and then off with the representative of his activity in Atlanta and heading for the most interesting spot about the city for giving that particular activity the public eye.

At 1:30 o'clock the delegation took luncheon at the Capital City club. Wednesday afternoon will motor over Fulton county's roads and visit the country clubs. The boosters will leave Atlanta at midnight.

The Chicago organization, headed by Herbert P. Miller, business manager of the association, is the largest of its kind in the world. Includes 4,500 corporations, firms and business men, with an individual membership of over 15,000.

And the purpose of this tour? Why, it's simply this: "This is a crusade of acquaintance. We invite the boosters included in this itinerary to make a return visit—the course the best." The itinerary, which started April 12 and will end April 26, includes the principal cities of the seven southern states. Most of them were visited before the Atlanta visit.

"It has all been wonderful," educational inspiring," said Frank Adams Mitchell, one of the delegation, Wednesday and Atlanta. "We approached you with respect and awe, for you have one of the inland south's greatest cities. Just as Chicago is the wonder of the inland south, Atlanta is the glory of the inland south. We have come to visit you, to learn of you, to help you and help you to help us. This is the most interesting of our trip. While we may meet as many as let us part as friends."

Many passersby were attracted to the car of the Chicago delegation as it rolled on the Southern railway tracks Wednesday morning. The delegation, headed by George L. Cox, of the Advance Motion Picture company, of Chicago, snapped them.

The movie men are taking the entire trip with the delegation, getting views at factories and industrial plants that will best advertise the city where they were taken. This is the first of the most interesting of our trip. While we may meet as many as let us part as friends."

In the Chicago party are:

Atlanta Rotary Club Endorse Resolutions for Closing Wednesday Afternoons

Members of the Atlanta Rotary club at the regular semi-monthly meeting held Tuesday afternoon, unanimously endorsed resolutions introduced by Francis E. The innovation was tried last summer and was a welcome one to hundreds of clerks in the city who were given a half day off each week during the hot months. The stores will therefore close each Wednesday afternoon at 1 o'clock.

Chocolate Fishes
A tempting dainty is a chocolate fish, already hooked on a small line attached to a tiny pole four to five inches long. This small fish rests in a little wooden box containing several other chocolate members of the pleasure world. In the cover of the box is the real surprise.

For after the chocolate fish is unhooked and eaten and its chocolate brothers are likewise disposed of, there is folded into the cover of the box a small pasteboard fishing boat with four or five pasteboard fish all ready to take the imaginary bait from the best-wire hook on the end of the tiny fish line.

What Anne Rittenhouse Says

PARIS—There are many persons who think that all French hats are elaborate and expensive, and they look to America for head coverings that are severe.

France earned this reputation through many centuries when she deserved it, but she has become a past mistress in the art of the plain hat as in the tailored suit. She knows how to shape a bit of straw into such an admirable work that it needs no trimming, and she has learned to attach a minimum of trimming in a most satisfying way.

Everyone who knows anything about clothes realizes that simplicity is difficult to attain and demands a constant care, the judicious process of elimination and a knowledge of style. Simplicity that is not obtained through this method is usually devoid and is mistaken for its more artistic cousin.

The French are not dowdy; at least the Parisienne who makes any pretense of dressing well can never be credited with that fault. The woman who is most simply dressed ever in the world is the woman who is accredited with knowledge and the makes a beauty of wearing Anglo-Saxon clothes for the open. She knows how to wear a hat, and she knows that it is why Paris can produce such wonderful headgear and coat suits at the present moment.

Hats of Belgian Straw.
There is a new hat over here which is very smart for street wear, and many afternoon hats are also built of it. It has a high crown, it is made of a decided color, and it is made of the very best of the material. It is made of the very best of the material. It is made of the very best of the material. It is made of the very best of the material.

There have been many admirable things put out on the market this last season that have not been worn before. The money that is being spent on hats is being spent on hats. The money that is being spent on hats is being spent on hats. The money that is being spent on hats is being spent on hats.

IN LOCAL THEATERS

(Criticism of local performances at the local theaters.)
All other matter appearing in this column is the property of the Atlanta Journal.

One of the cleverest and one of the brightest combinations of vaudeville artists in the city is the team of the attraction at the Forsyth. And attendance is up to that fine standard that makes the theater one of the most popular institutions in the city of Atlanta.

Starting on the bill is Joseph Hart's wonderful play, "The Green Heron." The act is the greatest of its sort in vaudeville. The play is a masterpiece of the highest standard. The actors in the cast are of the highest standard. No company in any play is better than this combination of eight people who tell a story in an intensely dramatic fashion.

But aside from the headline there are acts that make the show the most noteworthy patrons always endorse. The show is a pretty, winning and cunning. Jimmy Conlin, Lillian Steele and the "Polka of Vaudeville." It is something that a variety might expect to see. And in a fashion that was laughter and applause. It is a comedy in an original, acrobatic style, that was a comedy in a second to no laugh without in the show.

With such a wonderfully interesting headline, extraordinary good comedy acts, pretty girls in pretty gowns, new songs and good music, it is not unusual that the Forsyth is being crowded at every performance and a demand for seats registered for the morning, afternoon and evening entertainments. In a word, you'll have to hurry if you want seats.

If one may judge by large and delighted audiences, the show is well on the road to success with the new comedy of J. Edgar Kettle, vaudeville. Four of the five acts that opened Monday night tonight to be replaced by four others and a new feature film, "Pagan King of Newshove" will remain on the bill. The new feature film, "Pagan King of Newshove" will remain on the bill. The new feature film, "Pagan King of Newshove" will remain on the bill.
